

Microsoft DevDays Stand # 20

Verum is one of the Silver sponsors of Microsoft's Benelux DevDays conference and exhibition in Den Haag. Verum's commitment to the growing influence of Microsoft's embedded software technologies will be on display. In addition, Verum has been chosen to present a technical lecture and demonstration at the heralded Geek Night, which runs from 18:30 - 22:30 on Tuesday night March 30th. Thirsty software architects are welcome to drop by our stand for a drink.
